This AISC 2022 conference will provide an excellent international forum for sharing knowledge and results in the theory and applications of Machine Learning, Deep Learning, Computer Networks, the Internet of Things, and Security. Original papers are invited on Networks, the Internet of Things, and security. The AISC 2022 conference session aims to provide a platform for researchers and will provide an excellent international forum for sharing knowledge and results in the theory and applications of Machine Learning and Applications practitioners from academia and industry to meet and share cutting-edge development in the field.

Aim and Scope

The goal of this session is to highlight tackling important social, environmental, and healthcare challenges of today's world that exist today with the help of AI. It focuses on delivering positive social impact in accordance with the priorities outlined in the United Nations' 17 Sustainable Development Goals (SDGs). It is an emerging field of scientific research that looks beyond automation and efficiency and is increasingly gaining momentum in the AI community. The session aims to bring together researchers, academicians, and practitioners to share their proficiencies and research outcomes.

Topics recommended of interest include, but are not limited to, the following:

Machine Learning and Artificial Intelligence for Social Impact

- ? Machine learning and Deep learning for data analysis
- ? AI/ML in Smart agriculture and food
- ? AI/ML in Smart Homes and cities
- ? AI/ML in financial systems
- ? AI/ML in education and Training
- ? AI for Social Media and Networking
- ? AI/ML in health and Well-being
- ? AI/ML in environment sustainability
- ? AI/ML in social media analysis for mental health monitoring
- ? Privacy and security in AI/ML systems
- ? Ethics in AI/ML systems
